 Fitosila" was established in 1998. Its business covers the production and sale of health products. These are oral nutritional supplements (ONS), medical cosmetics, medical equipment, massagers, means of hygiene, figure correction and weight loss, healthy groceries, and many other things required for the full-fledged human activity. Its main objective is to ensure the domestic and foreign markets with health products on time.

**Our mission is to make available opportunities to maintain healthy lifestyle for a millions people in Russia and around the Globe.**

**We take an active part in the development of health care, forming high standards in the industry, stimulating the introduction of innovative solutions and technologies, providing regular support to national science, culture and sports, and preserving the cultural and historical heritage. One of the tasks of our organization is to bring quality and fast products necessary for health and beauty to our consumer.**

 The products manufactured by the company are known and successfully sold not only in the Russian Federation, but also abroad, in more than 15 countries.

 The Company takes an active part in the development of healthcare, setting high standards of business conduct, stimulating the introduction of innovative solutions

and technologies, provides regular support to the national science, culture and sport, preservation of cultural and historical heritage.

 At our warehouse in Moscow, we always hold more than 2500 SKUs, including the oral nutritional supplements, healthy grocery, vitamins, means for weight loss, aromatherapy, medical cosmetology, essential oils, health-improving teas and phytocomplexes for diet, eastern balms created according to ancient recipes, products for magnetic therapy and many other things.

 The company offers free delivery within Moscow to its partners. Fitosila has its own fleet of trucks, which will deliver your order to the specified place and at agreed time. The shipping department will ensure the delivery of goods across Moscow and will ship them through the shipping companies to the other regions.

 We deal with high-qualitative goods and make every effort to clear the fakes and poor quality products from the Russian market. All goods are accompanied by the marketing authorizations confirming their quality. The main principle of our organization is the Hippocrates' commandment, "Do no harm!"

The company production asset includes more than sixty (60) products, consolidated under the following brands: "SUSTAMED", "TOADSTONE", "KLIRVIN", "MYCOSPRAY", "FITOSILA", "SPIRULINA-FITOSILA" and its own production site where 70% of the company products are manufactured.
